*Through the months of 1st November to 31st January 2018  
I am offering all clients a special introductory 35% discount on all packages.*

To book me for a photography session the fee is £100.00 and there is no extra charge for added hours. I fully understand the patience needed when dealing with children, so there is no added pressure for time on my part. This is for the cost of location and on-site studio shoots. I also have a portable studio so I can come to you – perfect if you have a new-born and find it difficult to travel. Please note that a travel fee of £50 per hour of travel time will be chargeable for clients living outside Oxfordshire / Gloucestershire.

The following packages are extras for you to order after the shoot has taken place. A private gallery will be available for five days after your shoot so you can view the photos and order any of these carefully chosen packages. However, I also offer a private viewing with me so we can go through your choices and discuss your options to get the best of your experience with me.

The prints I offer are through a local professional company who use the very best paper to keep your images from fading and ensure they are preserved correctly. All my prints are designed to give you a beautiful art piece to enjoy and enhance your overall experience. Modern techniques, such as printing on canvas and silk photographic paper surfaces, give a beautiful finish; they really bring out the depth and colour of images, giving a stylish visual and artistic impact. These and other printing styles are always chosen personally with you.

Digital Images can be purchased through your private online gallery. Once purchased, they will be available for download. These professionally edited photos are priced at £45 each. If you would like a hard copy I can send you a USB Drive with your purchased images for an extra £15.

## Wedding Packages

I strongly feel it is important for me to get to know you both before the day. I need to observe your mannerisms towards each other in order to capture moments that really emphasise your love towards one another. There are certain smiles, certain looks one only gives to their loved one and it is my job to discover these expressions and capture them so that the photos have personal and creative depth.

I offer a complimentary meeting, so we can go through my portfolio and you can get to know me a bit before the big day. I also offer a 'quick' shoot where I will spend some time with you, so you can see what kind of photos I do. This will help to reassure you both that my style is suitable for you, and we can break down the 'shy' barriers so you are both relaxed with me on the big day.

A private viewing gallery will be available for you and your guests 7 days after your ceremony. I am also happy to come and meet you to discuss your options and personalise your after-care package.
